

#1

Create your own identity

- Via phone, email or social media
- Project discussed including scheduling, requirements, budgeting and wish lists amongst other areas
- Appointment for onsite visit is made

#2

Site visit and initial tendering

- Site visit and initial tendering and assessments made
- Collation of client and site information starts at this stage
- Project requirements are discussed - sizing, dreams, access, products, budgets are discussed
- We address projects with a holistic approach and provide initial pricing guide based on this meeting

#3

Design and approvals

- Work with client and our design team to bring all aspects of the project together
- Chase the best approvals for each individual project and its requirements - CDC or DA/CC

#4

Construction

- Let's build a swimming pool
- Coordinating with builders, landscapers, architects and engineers
- Our transparent way of construction is always welcome with industry professionals and clients alike

#5

Completion and handover

- Final completion of construction and handover of the swimming pool to the client. Ensuring that the client is completely happy in all areas

#6

A balanced lifestyle

- Enjoy the lifestyle with confidence
